TEAS - Test of Essential Academic Skills

The TEAS is a product of Assessment Technologies Institute® (ATI) and is a standardized assessment of basic knowledge in reading, mathematics, science, and English and language usage. The outcomes assessed on the test are those that nurse educators consider most appropriate and relevant to measure entry-level skills and abilities of nursing program applicants. Studies show a consistent link between performance on the TEAS and future academic success. There are 170 multiple-choice questions and the time limit is 209 minutes.

Scoring Requirements

The **TEAS must be taken prior to the March 1 nursing program application deadline and a minimum total score of 58.7% is required.** Applicants are allowed to take the TEAS twice within 12 months of the application deadline in the current admission cycle and the highest score is used. TEAS scores are valid for 24 months in the event you wish to apply to the program at a later date. If you opt to take the TEAS more than once, it is recommended that you wait one month between retest to allow time for study.
